Application No. 10/765,336

Filed: January 27, 2004

Attorney Docket No.20150-74359

ON APPLICATION FOR

PATENT TERM ADJUSTMENT

This is in response to the APPLICATION FOR PATENT TERM ADJUSTMENT RECONSIDERATION UNDER 37 C.F.R. § 1.705(B) filed June 26, 2009. Applicants submit that the correct patent term adjustment to be indicated on the patent is one thousand fifty-five (1,055) days, not four hundred seventy-eight (478) days as calculated by the Office as of the mailing of the initial determination of patent term adjustment. Applicants request this correction solely on the basis that the Office will take in excess of three years to issue this patent.

:

As the instant application for patent term adjustment requests reconsideration of the patent term adjustment as it relates to the Office's failure to issue the patent within 3 years of the filing date, the application for patent term adjustment under 37 CFR 1.705(b) is **DISMISSED as PREMATURE**.

Knowledge of the actual date the patent issues is required to calculate the amount, if any, of additional patent term patentee is entitled to for Office failure to issue the patent within 3 years. See § 1.702(b). (This is true even where a request for continued examination (RCE) was filed). The computer will not undertake the § 1.702(b) calculation until the actual date of issuance of the patent has been determined. Likewise, the computer will not calculate any further Office delay under § 1.702(a)(4) or applicant delay under § 1.704(c)(10) until the actual date of issuance of the patent has been determined. As such, the Office cannot make a determination on the correctness of the patent term adjustment until the patent has issued.

Requesting reconsideration of the patent term adjustment to be indicated on the patent under 37 CFR 1.705(b) based on the initial determination of patent term adjustment and a projected issuance date of the patent (or even the filing date of the request for continued examination) is premature. Accordingly, it is appropriate to dismiss as premature such a request.

Rather than file an application for patent term adjustment under 37 CFR 1.705(b) contesting the 37 CFR 1.702(b) calculation at the time of the mailing of the notice of allowance, applicant is advised that they may wait until the time of the issuance of the patent and file a request for reconsideration of the patent term adjustment pursuant to 37 CFR 1.705(d). As the USPTO does not calculate the amount of time earned pursuant to 37 CFR 1.702(b) until the time of the issuance of the patent, the Office will consider any request for reconsideration of the patent term adjustment due to an error in the calculation of 37 CFR 1.702(b) to be timely if the request for reconsideration is filed within two months of the issuance of the patent. However, as to all other bases for contesting the initial determination of patent term adjustment received with the notice of allowance, applicant must timely file an application for patent term adjustment prior to the payment of the issue fee1.

The Office acknowledges submission of the \$200.00 fee set forth in 37 CFR 1.18(e) for consideration of the application for patent term adjustment under 37 CFR 1.705(b).

Any request for reconsideration of the patent term adjustment indicated on the patent must be timely filed within 2 months after issuance pursuant to 37 CFR 1.705(d) and must include payment of the required fee under 37 CFR 1.18(e).

For example, if applicant disputes both the calculation of patent term adjustment under 37 CFR 1.702(a)(1) for Office failure to mail a first Office action or notice of allowance not later than fourteen months after the date on which the application was filed and under 37 CFR 1.702(b) for Office failure to issue a patent within three years of the actual filing date of the application, then applicant must still timely file an application for patent term adjustment prior to the payment of the issue fee to contest the calculation of Office delay in issuing a first Office action or notice of allowance. See 37 CFR 1.705(b) and 35 U.S.C. 154(b)(3)(B). A dispute as to the calculation of the \$1.702(a)(1) period raised on request for reconsideration of patent term adjustment under 37 CFR 1.705(d) will be dismissed as untimely filed.

The Office of Data Management has been advised of this decision. This application is being referred to the Office of Data Management for issuance of the patent.

Pursuant to the decision rendered in Wyeth v. Dudas, a patentee is entitled to Patent Term Adjustment credit for examination delay under 37 C.F.R. § 1.702(a) in addition to any examination delay under 37 C.F.R. § 1.702(b), to the extent that the two periods of delay do not "occur on the same calendar day or days." Wyeth, 580 F.Supp.2d at 140, 88 U.S.P.Q.2d at 1540. A copy of Wyeth is attached hereto as "Attachment A" for the Office's convenience.

Accordingly, the patentee of the above-identified patent application is entitled to a credit for the sum of 661 days under 37 C.F.R. § 1.702(a) and 577 days under 37 C.F.R. § 1.702(b), for a total of 1238 days, subject to a reduction of 183 days under 37 C.F.R. § 1.704. Thus, Applicants respectfully submit the total Patent Term Adjustment is 1055 days.

U.S. Appl. No. 10/765,336 Request for PTA Reconsideration

The above-identified patent is not subject to a terminal disclaimer. This Request is timely filed under 37 C.F.R. § 1.705(b) as it is being filed no later than the payment of the issue fee submitted herewith. Applicants respectfully request that, if any additional days accrue due to Patent Office delays pursuant to 37 C.F.R. § 1.702(a), the additional days be added to the total Patent Term Adjustment credit.

Applicants respectfully request revision of the Patent Term Adjustment as set forth above. The Director is hereby authorized to charge the Barnes and Thornburg LLP Deposit Account No. 10-0435 the amount of \$200.00 in payment of the reconsideration fee under 37 C.F.R. § 1.18(e), with reference to our Matter No. 20150-74359.
